

PRACTICAL EVIDENCE
FOR INFORMED PRACTICE CONFERENCE

“Keep up the great work! Last year’s conference immediately and significantly changed my practice and I expect this year’s will, too.”

ALBERTA COLLEGE of
FAMILY PHYSICIANS

Advancing excellence in family practice

"I would like to commend the planning committee and presenters. It was evident that a lot of time, effort, and thought went into this conference. It is probably the best educational session I have ever attended."

"Love the practical application of studies and guidelines. This approach makes so much sense and is so informative. Awesome conference, would not miss it!"

MARK YOUR CALENDAR!

The 8th annual Practical Evidence for Informed Practice (PEIP) conference brings together clinical leaders to speak on the latest findings that can affect your practice and how you treat your patients.

Focusing on relevant, evidence-based, and thought-provoking topics in health care that combine evidence, experience, and patient values, PEIP is applicable to physicians, pharmacists, nurses, nurse practitioners, and other health care providers.

CPD TO FIT YOU!

No travel, no accommodations, same great learning. PEIP 2019 will be offered via Live Webcast for those who prefer to take in the conference from the comfort of their own home (or office!).

"I realize now that the webcast is a good option to attend the conference. Being able to do CME from home is awesome."
